About CRISP

Regional Health Information Exchange (HIE) serving Maryland and the District of Columbia, and collaborating with Delaware, Northern Virginia, Pennsylvania, and West Virginia

Vision: To advance health and wellness by deploying health information technology solutions adopted through cooperation and collaboration

Mission and Guiding Principles

Mission

We will enable and support the healthcare community of Maryland and our region to appropriately and securely share data in order to facilitate care, reduce costs, and improve health outcomes.

Guiding Principles

1. Begin with a manageable scope and remain incremental.
2. Create opportunities to cooperate even while participating healthcare organizations still compete in other ways.
3. Affirm that competition and market-mechanisms spur innovation and improvement.
4. Promote and enable consumers' control over their own health information.
5. Use best practices and standards.
6. Serve our region's entire healthcare community.

CRISP Core Services

1. POINT OF CARE: Clinical Query Portal & In-context Information

- Search for your patients' prior hospital records (e.g., labs, radiology reports, etc.)
- Monitor the prescribing and dispensing of PDMP drugs
- Determine other members of your patient's care team
- Be alerted to important conditions or treatment information

2. CARE COORDINATION: Encounter Notification Service (ENS)

- Be notified when your patient is hospitalized in any regional hospital
- Receive special notification about ED visits that are potential readmissions
- Know when your MCO member is in the ED

3. POPULATION HEALTH: CRISP Reporting Services (CRS)

- Use Case Mix data and Medicare claims data to:
 - Identify patients who could benefit from services
 - Measure performance of initiatives for QI and program reporting
 - Coordinate with peers on behalf of patients who see multiple providers

4. PUBLIC HEALTH SUPPORT: Partnerships with Maryland MDH, District of Columbia DHCF, and West Virginia through the WVHIN

5. PROGRAM ADMINISTRATION: Technical and administrative support for Care Redesign Programs

Data Landscape

Data source or attribute	#
Live hospitals	91
Live clinical data feeds	261 (lab, rad, ADT, CCD)
Live ENS practices	+1,000
Long-term and post-acute care facilities	170
Standalone labs and radiology centers	16
Unique patients in index	+16 million
Patient searches	+400,000/mo
Encounter alerts sent	+2,500,000/mo

Service	Typical Week
Admit, Discharges from Hospitals and Ambulatory	4,159,212
Laboratory Reports Received	964,712
Received Transcriptions/Reports	236,335
Received Radiology Reports	163,407
Encounter Notifications Sent	852,411
InContext Requests for HIE Registry data	470,060
Delivery of Registry into EMRs	311,040
InContext Requests for PDMP Data	369,580
Delivery of PDMP Data into EMRs	95,540
Patients Searched	61,489
Patients searched in ULP Portal	41,403
Patients searched from an EMR	13,606
Images Viewed	176
New data sent to MPI	1,833,000

CRISP

Unified Landing Page (ULP)

Unified Landing Page

- The CRISP Unified Landing Page is a single platform in which multiple CRISP services can be accessed
- Users can now have access to many CRISP Services with just one username and password
- Currently, Clinical Query Portal and PDMP are available.
- Other services are gradually being added.

Care Alerts

Date	Source	Description
04/04/2019	ENLABOR/TW	Please help us help you! We have been trying to reach this patient, who has been referred to us by their health insurance company. We are AbsoluteCARE, a local primary care office specializing in adults with a history of frequent ED/hospital usage. We provide care management, social work, behavioral health services, and transportation in addition to advanced primary care services. Help get this patient enrolled in AbsoluteCARE by calling one of us (Monday - Friday between the office hours of 9am - 5pm), and we will come to the patients bedside as soon as feasibly possible. Thank you! LaSharon Bartley (301-922-8075) and Joseph Lane (301-458-1430).
04/01/2019	MIMC	Patient is due for colonoscopy
02/01/2019	UMMS	Patient's daughter helps manage medications and care. Please call her at 410-364-5216 if adding any meds or with questions.
01/20/2019	SAH	Patient may have experienced an overdose even on 2019-01-20 20:30 at SAH. Discharge Diagnosis, T40.2X1A (Poisoning by other opioids, accidental (unintentional), initial)

Prescription Drug Monitoring Program (PDMP)

- Dispensed controlled dangerous substances from Maryland and surrounding states
- Results can be sorted by date, prescribers, and other items
- Mandate requiring search before prescribing opioids or benzodiazepines

Encounter Notification Services

Problem to solve.

Problem to solve:

During pregnancy: Care for pregnant women in our region can often be fragmented – FQHCs, Health Systems, PP, and others play a vital role in providing effective care. The fragmentation and the potential lack of information can lead to repetitive testing or less than optimal decision making.

Other Use Cases (less valuable/excitement per Subcommittee):

Miscarriage Management

Ectopic Pregnancy Follow-up

Goals of Maternal & Child Health Snapshot

There are certain data and documents that are most important to make widely accessible to the region's provider community. Further, bundling such information such that searching for it is frictionless will improve the care delivered.

- Brainstorm the most vital data elements
- Understand CRISP's current capture of such data
- For data deemed vital, seek to collect from the provider community

Data and Document Types

Data/Documents	Details
Labs	STDs- Syphilis; Chlamydia; Gonorrhea;
Imaging Results	Pregnancy-related Ultrasounds; Echocardiograms
Documents	Discharge Summaries; Admission Notes; OB Notes?
Claims	Casemix – MD; DC Medicaid claims --- Procedures (CPT); Medications filled (Methotrexate; others?)
Encounters	L&D events; PP? Diagnoses related to events
Care Team	Should we pull out certain subscribing organizations for view?
Continuity of Care Documents	Many hospitals; Many practices... soon will be able to acquire via national information sharing networks
-- Problems	
-- Medications	

Feedback / Weighting - Phasing

Study	Weight	LOINC	LOINC LongName
Gonorrhea	2 - Somewhat Essential	50388-8	Neisseria gonorrhoeae rRNA [Presence] in Cervix by NAA with probe detection
Chlamydia	1 - Essential	45068-4	Chlamydia trachomatis+Neisseria gonorrhoeae DNA [Presence] in Cervix by NAA with probe detection
HIV - Viral load; CD4+;	1 - Essential	62469-2	HIV 1 RNA [Units/volume] (viral load) in Serum or Plasma by NAA with probe detection
TB - skin test...	2 - Somewhat Essential	53257-2	Mycobacterium tuberculosis DNA [# / volume] in Unspecified specimen by NAA with probe detection
Rubella	1 - Essential	31956-6	Rubella virus Ag [Presence] in Cervix
Hepatitis B - sAb; sAg; core antibody; DNA	2 - Somewhat Essential	39005-4	Hepatitis B virus core Ab [Presence] in Body fluid
Hepatitis C - RNA	2 - Somewhat Essential	50023-1	Hepatitis C virus RNA panel (viral load) in Serum or Plasma by NAA with probe detection
Syphilis (VRDL and RPR) - back as far as possible. FTA-abs;	2 - Somewhat Essential	20507-0 / 5292-8	Reagin Ab [Presence] in Serum by RPR / Reagin Ab [Presence] in Serum by VDRL
Rh	3 - Not Essential	34530-6	ABO and Rh group panel - Blood
beta hcg (quantitative)	3 - Not Essential	29154-2	Choriogonadotropin.beta subunit [Units/volume] in Body fluid
hcg (urinalysis)	3 - Not Essential	56497-1	Choriogonadotropin.beta subunit [Units] in 24 hour Urine
Trichomonas	1 - Essential	70166-4	Trichomonas vaginalis rRNA [Presence] in Cervix by NAA with probe detection
Group B Strep	2 - Somewhat Essential	85767-2	Streptococcus agalactiae DNA [Presence] by NAA with non-probe detection in Positive blood culture
HSV screen	3 - Not Essential	87431-3	Herpes simplex virus 1 and 2 DNA panel - Unspecified specimen Qualitative by NAA with probe detection

Questions?

- Are we on the right track?
- What other data should we consider?
- How else should we get the word out?
- Any other words of advice?

CRISP

Thank You!
